- Bottom Sponsor Panel 3 ft. x 24 ft.

Customer Comments:

“Electro-Mech was easy to work with. We had a planned budget and expectation, and they met both. We worked closely with everyone involved, and they made it a good experience. Everyone thinks the new scoreboard is great.”

-Jason Miller - Director of Development

“Everyone we met or talked to at Electro-Mech was very knowledgeable and helpful in our decision making process. Their proposal was dead on the dollars we had budgeted, and even more, Electro-Mech also worked with us on our advertising graphics and made it easier to sell the boosters.”

-Andy Cowart - School Board Member
