North Forsyth High school - Cumming, GA
Head Coach: Jared Zito

What They Said

"Electro-Mech Scoreboard Company has been very professional and detailed in the process of the video board project here at North Forsyth. What probably impressed me the most besides the board itself in full operation, was the quality of customer service we received from Electro-Mech throughout the process.

Electro-Mech employees were very personable and really invested a lot of time and energy to make sure we felt that our project was the most important one they had to complete. I would fully recommend using Electro-Mech Scoreboard Company to anyone that is looking to install a video board at their school."
