HAMBLEN COUNTY SCHOOL DISTRICT - Morristown, TN
Superintendent: Dr. Dale Lynch

What They Said

"After putting in artificial turf last year, we wanted to put an exclamation point on our stadium. We made the decision to go with Electro-Mech for our scoreboard and video display for simple reasons; straight answers, professional on site training, and a quality product."

Dr. Dale Lynch

Superintendent - Hamblen County School District

"To have a company provide this type of product and help us implement the software in our classroom was amazing. Not only do we have a great video display and scoreboard on Friday nights, but our students are utilizing the software in the classroom."

Dr. Howard Sisco
IT Director
