

Tim Branton - Outside Sales

Education:

- Conway High School 1967
- USAF Air Traffic Control School, Keesler AFB, MS, Dec 67
- Maranatha Baptist Bible College, 1979
- USAF Air Traffic Control Radar Maintenance School, Keesler, June 88, 240th Combat Comm Squadron, SC Air National Guard

In 1992 I began working for a sign company in the Columbia area, installing and repairing electronic signs and scoreboards. Later I worked for another scoreboard company for three years, then owned my own business, the Scoreboard Shop, in Lexington before joining Electro-Mech in February of 1999 after three years on my own. Prior to John eclipsing my record, I had installed more scoreboards in SC than anyone else. In 2002 I made the transition to sales full time and moved to Georgia to be near our plant. But that does not mean that you will not find me on a ladder repairing or installing a scoreboard. When you love helping people as I do, it is hard for the boss to get the old man off the ladder.

50+ years, all in the same location
 Privately owned, means our future and pricing is not tied to the Stock Market
 More scoreboards in the Carolina's and Georgia than all our competitors combined
 Local factory service and installation available
 UPS ground delivery in one day to all of Georgia, South Carolina and some of North Carolina

John Braeckelerie

Education:

- Wade Hampton High School (G)
- Worked in the video gaming industry as an electronics repairman

I was born in Indiana, but grew up in the Greenville area. I came to Electro-Mech in 1999 and have installed more scoreboards in the last decade than anyone ever in South Carolina. I have the "know how" to service scoreboards from all manufacturers and have installed everything from the smallest basketball board up to full video boards.

Fancis Marion University, Mercer University, and Lenoir-Ryhne University are just a few of the larger projects I have installed.
