DAKTRONICS

RC-100 Handheld Controller,
Clock/Score Mode

RC-100 WIRELESS HANDHELD CONTROLLER PRODUCT SPECIFICATIONS

The RC-100 handheld controller is a truly wireless device that can control a variety of Daktronics standard scoreboards. For base-ball/softball applications, the umpire operating the RC-100 unit, as well as the fans and players, can instantaneously see the ball and strike count on the scoreboard. For tennis applications, multiple RC-100 units can be used to control multi-court scoreboards. The handheld controller operates one scoreboard at a time with a single scoreboard receiver. Additional receivers may be used for certain applications, such as when two play clocks are located at opposite ends of a football field. The handheld unit operates using a 900 MHz radio with internal antenna and features 15 selectable channels to minimize radio interference.

CONSTRUCTION: Durable ABS plastic

DIMENSIONS: Height 4.7", Width 2.7", Depth 1.2" (119 mm, 69 mm, 31 mm)

WEIGHT: 0.4 lb (0.18 kg)

POWER: Rechargeable Ni-MH (Nickel Metal Hydride) 2000 mAh that will provide 8-10 hours of operation
External power supply for charging and/or 120 V AC operation

DISPLAY: 97x32 graphic LCD non-backlit screen with adjustable contrast

RANGE: 10 - 500 ft (3 - 152 m)

OPTIONS:
- Multi-unit charger (charges up to 6 RC-100 controllers at once)
- Carrying/operation case (with belt clip, wrist and neck strap)
